A Penning trap stores charged particles using a strong homogeneous axial magnetic field to confine particles radially and a quadrupole electric field to confine the ...

### **Ion trap - Wikipedia**

A Penning trap is a device for the storage of charged particles using a homogeneous axial magnetic field and an inhomogeneous quadrupole electric field.

### **Penning trap - Wikipedia**

We cover the areas of electronics and photonics with core activities ranging from physical electronics, system design and verification to a wide application field.
